**Standard Specification for Carbon Steel Forgings for Piping Applications<sup>1</sup>**

**1. Scope<sup>2</sup>**

1.1 This specification covers forged carbon steel piping components for pressure and higher temperature service in pressure systems. Included are flanges, forgings, valves, and similar pipe-related items. In addition, forgings for the manufacture of pipe hangers are listed in a separate section of this specification. Forging pipe hangers are listed in a separate section of this specification. Forging pipe hangers are listed in a separate section of this specification. Forging pipe hangers are listed in a separate section of this specification.

**Standard Specification for Carbon Steel Forging Materials for High-Pressure Applications<sup>1</sup>**

**1. Scope<sup>2</sup>**

1.1 This specification covers forged carbon steel piping components for high-pressure service in pressure systems. Included are flanges, forgings, valves, and similar pipe-related items. In addition, forgings for the manufacture of pipe hangers are listed in a separate section of this specification. Forging pipe hangers are listed in a separate section of this specification. Forging pipe hangers are listed in a separate section of this specification.
